

RECEIPTS OF MICHIGAN A. S. SOCIETY

W. McCLAIN, *Principal and Professor of the Science of Accounts.*

W. McClain, *Principal and Professor of the Science of Accounts.*
W. P. Cooper, *Professor of Business and Ornamental Penmanship.*

AMBLER Esq., *Lecturer on Commercial Law.*
Commercial.—This Department will furnish the student excellent facilities for acquiring a thorough practical knowledge of Single and Double Entry Book Keeping, and Commercial Calculations, as applied to the Department of Commerce, Manufacturing, Railroads and Steamboat Business, etc. It also embraces Business Partnership, Commercial Correspondence and Structures on Commercial Law.
 Through established links in large cities have hitherto been required as almost the only reliable sources of

ness Education, we hope to render this Institution less worthy of the ridicule and patronage of business men, than are those to be found at the great centres of trade. The comparative cheapness of rent and living enables us to furnish tuition at much lower rates than it can be had in larger places.

As we have frequently been asked, within the past year, why the tuition fees for instruction in Book-keeping are so much higher than for most other branches of science, we deem it proper to say that while attending Mr. Hall's Commercial College, at Pitts-

ly, for the purpose of becoming fully acquainted with that entire teacher's system, as well as with his plans of instruction, and also while visiting some of the best Commercial Schools in this State, we were fully confirmed in the opinion which eight years of experience in Book Keeping, under various circumstances, had previously formed upon us, that to receive thoroughly, practical knowledge of the science of accounts, it is just as well to make the constant rate of the instructor, making the labor of teaching one student in Book Keeping equal to that bestowed on several others, and therefore, ren-

Students are not offered a choice of subjects, and therefore, it is not possible for a teacher to take charge of more than from fifteen to twenty students at one time. Students will be instructed individually, so that they can enter at any time.

From seven to ten weeks are sufficient to complete a course.

A set of neat, comfortable and commodious rooms will be fitted up for the accommodation of the Institute.

Diplomas are awarded to those who complete the course and sustain a satisfactory examination.

Good boarding can be had at from \$2.00 to \$2.50 a week.

The first session will commence **November 20, 1934.**

TERMS: Payable invariably in advance, unless a special arrangement is made to the contrary.

1st Mercantile course, including, in addition to book-keeping, business penmanship, law lectures and commercial correspondence, **\$20.00**

2nd course for Ladies, **\$15.00**

3rd Commercial penmanship, twenty lessons, **\$6.00**

Article.—Mrs. R. H. McCLAIN, who has spent several years in preparing herself to teach the different branches of Painting and Drawing, authorizes me to state that she will take pleasure in giving those who desire her services, regular courses of instruction in Pencil Drawing, Water Color, Oil and Monochrome Painting and Sketching from nature,—as moderate.

As the Board of Education of the Union School of this place, think that I will, by opening such a school at the place for which I recently issued a circular, so interest

with the success of the High School department
said Union School, as virtually to violate the spirit
of a contract made between them and myself a few
weeks since, I have agreed to dispense with all the
elements of the Institution mentioned in said circular
except the Commercial Department, to which I will
therefore be able to give my entire attention.

Salem, Oct. 23, 1854. Wm. McCLELLAIN.

Mr. Cooper is well known as an accomplished and
successful Teacher of the Spencerian System of Pen-
manship, and we feel no hesitancy in saying that he

has no superior, except Mr. Spencer, either as a *Writer* or *Instructor*, in any Commercial College in the
SALEM FOUNDRY!!
you want Cheap and Good Stoves, call on Snider & Woodruff, at the old SALEM FOUNDRY, in Salem, Ohio.
THANKFUL for past favors, we would call the attention of the public to the variety of style of

Stoves now manufactured at our establishment invite all who may want Stoves, to call and examine ours, as we are determined to sell as low as any other market dare sell, either wholesale or retail, and warrant all our work.

Among the Stoves are as follows:

The NATIVE, improved, for the use of wood, which has stood against all competition of Cook Stoves for the last five years.

The MINESOTA, Nos. 1 and 2, less in size than the Native, equal in every other respect.

THE IMPURE IMPROVED, in the length of the chamber.
THE KITCHEN WITCH, one of the latest improved Premiums.
THE WASHINGTON COOK, a new style for a small cook, on a superior plan to any in use, and adapted to the very purpose of coal, which can be changed by an additional plate to a perfect wood fire. No stove now in use has the same advantages this has to be so completely changed for the

of wood or coal; and an additional improvement is the raising and lowering of the grate, which will lessen or enlarge the fire-chamber. The LILY PARLOR, a new style of Parlor, and as a Parlor Cook Stove, made upon the latest and most improved plan; and by the use of a money top, it can be changed from a cook to a parlor stove. Also, two sizes of a cheaper style, for the same use.

The large rooms or parlors; also, large stores
for use of meeting and school houses, shops, &c.
CASTINGS of all kinds on hand and made to
order, such as the country demands, among which
Grates, Ploughs, Shares, Pouch Steps, Wagons
Huggy Boxes, &c., &c.
All the above will be sold low for cash or country
produce. SNIDER & WOODRUFF.
Sept. Oct. 21, 1854.

OF THE
FEMALE MEDICAL COLLEGE,
OF PENNSYLVANIA.

THIS Institution located at 229, Arch Street, Philadelphia, Pa., will commence its next session Saturday, September 30th, 1854 and continue six weeks, closing on Saturday, March 12th, 1855. It is the longest term of any Medical School in

UNITED STATES.
